Welcome to another fun filled year of holidays. 2020 and 2021 have certainly been challenging with the many COVID-19 outbreaks and lockdowns. These are difficult times when you are unable to leave home to enjoy travel, work or socialising. I know our community is strong and has certainly shown resilience with the many challenges.

During lockdowns I have been reviewing many parts of the ClubMates business and working to streamline many of our services so the holiday experience we provide is enhanced. You will see that we are providing more resources online via our social media and website, along with staff training and online interactions with Teams/Zoom meetings.

ClubMates staff are diverse and strong, with upskilling for many of the staff providing benefits for all our passengers and their support networks when they make a booking or enjoy their chosen holiday. We want to provide the best possible customer service and carer and will keep searching and pushing for improvements.

## COVID

Everyone at ClubMates has developed skills during this very difficult time so we are able to pivot to suit the fast and ever-changing environment ensuring no one misses out on a holiday. When making a booking you can feel safe that you won't lose money due to border closures or cancellations. No one to date has lost any money due to their holiday being postponed or cancelled as a result of COVID-19 restrictions with Clubmates Travel.

Our holidays are COVID safe and we are happy to send you our COVID Policy. Holidays are proceeding as scheduled unless there is a lockdown or border closure. We discovered early that our wonderful passengers wanted to enjoy a holiday after being locked down and have been working hard to make this a reality.

Our brochure is smaller than previous years due to our commitment to the environment and reducing our footprint on the planet. We want to move closer to being carbon neutral with smart use of vehicles, and bio-degradable products.

*As always keep safe and thanks for your continued support.*

# OUR COMPANY

02

*ClubMates Travel was founded in 1988, commencing as an Outback Safari tour company, then quickly moving to supported travel for people with a disability. We then grew to a national company supporting all types of abilities all over the world with skilled, qualified, and enthusiastic support staff on each holiday. ClubMates is now a well-respected Travel agency and Tour operator, catering for a wide range of disabilities able to facilitate any type of holiday.*

ClubMates can facilitate almost any kind of holiday, whether you want to travel in Australia or abroad, as an individual or as part of a group (4-40 passengers). ClubMates Travel offers individualised holidays with specialised support structures, depending on the needs of the passengers and their destination. The level of customisation means that each and every holiday is uniquely arranged for you and/or your family. All the staff at ClubMates understand the importance of good quality care and support and how a lack of it can potentially ruin a holiday. We understand that all passengers want to visit the destination of their dreams, but it will never be a great holiday unless the right care and support is provided. ClubMates support crew members presence is to ensure passengers will have fun on their holidays and provide safety and comfort for the duration of their holiday. ClubMates staff are trained to administer medication, assist with budgeting, and if required provide more personalized care. Whatever is needed, everyone at ClubMates Travel ensures it is taken care of with dignity and skill. From the moment you call ClubMates to the last kilometre of the holiday, the company's 90 strong team of friendly travel agents and experienced support staff are there for you and your family. Our loyal customers that frequently use ClubMates to arrange and provide the support on holidays are testament to the incredibly thorough job done by all the staff.

# OUR Values

Since 1988 ClubMates Travel has been working to a set of values that have emerged from within the company, a set of core values that we like to call 'The ClubMates Travel Code.' Our code governs the way we operate on a daily basis. It ensures that whatever the size of the company, whichever direction it takes, the ClubMates Travel team will always exude the qualities that have made ClubMates Travel the leading name in supported travel.

## Never be too proud to learn

- If we can learn from our mistakes as well as our successes, we will always be better than yesterday. We will always listen to our employees, passengers and their support network, to ensure we are the best possible company we can be.

## Believe in equality

- This important belief is one that has filtered down the organisation from Peter Negri at the top. We believe that if we can treat everyone, employees and passengers alike, with the respect we seek for ourselves, then great things can happen. No matter what level an employee is at within our company, no matter the ability of our passengers, we will always treat people with the respect they deserve.

## Work hard so others can play harder

- We realise that incredible, memorable holidays don't just happen, we work hard, and we don't mind doing it, because we know that the harder we work for our passengers, the more fun they are going to have on their holidays.

## Dream big

- We encourage it in our staff and in our passengers. The possibilities for ClubMates and everyone connected to our company are endless if we can continue to dream.

## No matter what happens enjoy the journey

- Life is not a dress rehearsal.

At ClubMates Travel we are extremely conscious about the footprints we leave behind as a global company, being aware and careful about how we impact the communities and the environment that we work within is something that we believe is important. With each person we take on holidays and many destinations we explore we strive to leave it a better place and in better condition than it was before we visited. We value Eco Tourism and work towards being a good corporate citizen.

*ClubMates is striving to reduce our footprint on the environment and constantly working towards being environmentally friendly. All the team are looking for ways to reduce our environmental impact by using green energy and bio-degradable products.*

**ClubMates Travel** supports the idea of a diverse and inclusive world and enjoy working with many diverse cultures. Over the years we have strived to create a workforce that is representative of the places we visit, and the communities we support. We believe it is of paramount importance that our company is represented by people of different genders, disabilities, ethnicities, cultural backgrounds, sexual orientations, and belief systems. ClubMates is always looking for people with different communication styles, problem solving skills, personal interests, and backgrounds to join our company. We recognise the importance of strong recruitment policies to ensure diversity is achieved. ClubMates wants its staff to feel like they belong and have a career path set out in front of them with the chance of progression within the company and the disability sector. Management believe that all work should be enjoyable and fulfilling for the entire team, and that everyone should feel like an important part of the company. Our inclusive attitude allows a level of service that is unrivalled in the supported holiday sector.

ClubMates Travel expects all of our staff to provide a fun filled holiday, instil confidence in our passengers, their families and friends, ensure that we deliver consistent, high-quality service which endures from the first phone call to the last leg of the holiday.

**These expectations have built a successful framework which has kept passengers coming back to us year after year.**
